

Ways Of Man
Old Crow Medicine Show

ways of man

Capo on 5th fret.....

[Intro]

G (plucking and strumming between the 6th and 4th strings)

[Verse 1]

G **C** **G**
Since we first come out walking looking for a way back in
G walks down to **Em** **C** **D**
From this crazy world where we re blowing like leaves in the wind
G **C** **G** walks down to **Em**
Just trying to make sense of this life any way that we can
C **D** **G**
And fooling ourselves with the ways of man

[Chorus]

G walk up to **C** **G**
We can do what we want to, we can burn at both ends
Am **D**
We can go half crazy like we got no sense
C **G**
And it s a desperate feeling just to hold it all in
C **D** **G**
The weight of the world and the ways of man

[Verse 2]

C **G**
Well we thirst and we hunger and we love and we comfort now and then
Em **C** **D**
But we fight over money and power like water and bread
G **C** **G** **Em**
But it s simple the reason we re turning our backs on our friends
C **D** **G**
Cause this brotherly love is such a hard thing to get through our heads

[Chorus]

G **C** **G**
We can do what we want to, we can burn at both ends
Am **D**
We can go half crazy like we got no sense
C **G**
