Intro **F** **G** **F** **G**

F **G**
Sat on my bed and looked in my eyes

F **G**
Saw I was grieving for some other time

F **G**
Stood on my breath and moved close to say

F **G**
Oh won t you love me let s walk out to play

C **G**
Ooh we caught the moon from the sky

F **G**
And wrapped it up with the love that we found in our eyes

F **G**
And if the words don t tell me you love me

C **F**
And if the night won t hold us as one

F **G**
Now there is nothing left that can numb me

F **G**
Do you love me or do I run

F **G**
Why don t you ask me to stay?

F **G**
Ask me to stay
