Please Don't Let Me Go
Olly Murs

```
Gm                    C
Where do I begin?
                    Eb
Should I tell you
        F               Gm
How bad I need you now
                         C
You re underneath my skin
              Eb
But I m confused
                    F
My head is spinning all around
Gm                    C
I waited so long
                    Eb
I need to know, darling
        F
What is on your mind
```

```
Bb                        F
Normally I try to run
                        Cm
And I might even want to hide
                        Eb
Cause I never knew what I wanted
                        Bb
Til I looked into your eyes
                    F
So am I in this alone?
                    Cm
What I m looking for is a sign
                        Eb
That you feel how I feel for you
                    Bb
Baby please don t let me go
                    F
Baby please don t let me go
                    Cm
Baby please don t let me go
                    Eb
No, please don t let me go
```

Baby no, no, no, no

Badabadeebaba

```
Gm                            C
```

What else can I say? (Can I say)
Eb   **F**
My heart is beating double time, yeah
 Gm   **C**
And do you feel the same? (Do you feel the same)
                                         Eb
Don t leave me in the dark, no
                                        F
But baby don t put out this spark, no

Gm   **C**
I waited so long
                        Eb
I need to know, darling
                        F
What is on your mind

Bb   **F**
Normally I try to run
                                Cm
And I might even want to hide
                                Eb
Cause I never knew what I wanted
                        Bb
Til I looked into your eyes
                        F
So am I in this alone?
                        Cm
What I m looking for is a sign
                                Eb
That you feel how I feel for you
                        Bb
Baby please don t let me go
                        F
Baby please don t let me go
                        Cm
Baby please don t let me go
                        Eb
No, please don t let me go

Baby no, no, no, no

                                Gm
Caught in the inquisition
                        C
Under these conditions
                        Eb
I need a definition
                                F
Is it love that we re sharing
                                Gm
Show me that you re caring

```
                              C
You see my fascination
                                    Eb
Tell me I m not mistaken
                                       F
Give me the information I need

Bb                          F
Normally I try to run
                              Cm
And I might even want to hide
                                Eb
Cause I never knew what I wanted
                              Bb
Til I looked into your eyes
                          F
So am I in this alone?
                                Cm
What I m looking for is a sign
                                Eb
That you feel how I feel for you

                              Bb
Baby please don t let me go (Don t let me go)
                          F
Baby please don t let me go (Please don t let me go)
                          Cm
Baby please don t let me go (Don t let me go)
                            Eb
No, please don t let me go

Baby no, no, no, no
```
