

Tell The World
Olly Murs

C
I can see pouring rain
Em
See my future heading for the drain
Am
So betcha wondering
F G
Why I got a grin permanently on my face
C
Stumbling downhill fast
Em
Wasting time that I just don?t have
Am
But still I got a smirk

Like I?m up in first
F G
When I?m in economy class

F G
And I could be on my knees
Am G F
Going from bad to worse

G
And all of my hopes and dreams
Am G F
Come crashing down to earth
G G7
No matter how bad it seems?

C G
Any time I wake up and I see your face
Dm
Every single morning it?s a sunny day
F Fm
Don?t know how I ever lived life without you

C G
But girl you got me running to the highest place
Dm
So they can hear me screaming from miles away
F Fm
Gotta tell the world how I feel about you

Tell the world x3

Gotta tell the world how I feel about you

C

This ladder I'm 'bout to climb

Em

Need the highest roof that I can find

Am

I'm headed for the top

Dodging all the rocks

F

G

Till I hit the clear blue sky

C

Every day I keep it to myself

Em

I'm doing damage to my mental health

Am

If I don't let it go, think I might explode

F

Baby if I don't get help
