    C#   G#   D#
Hey Angel,
       C#                    G#
Do you know the reasons why
    D#
We look up to the sky?
    C#   G#   D#
Hey Angel,
       C#                 G#
Do you look at us and laugh
         D#
When we hold on to the past?
    C#   G#   D#
Hey Angel,

    C#                G#             D#
Oh I wish I could be more like you
       C#                  G#         D#
Do you wish you could me more like me?
      C#                  G#         D#
Oh I wish is I could be more like you
         C#                G#        D#
Do you wish you could be more like me?

Hey Angel,
          C#            G#
Tell me, do you ever try
        D#
To come to the other side?
    C#   G#   D#
Hey Angel,
          C#            G#
Tell me, do you ever cry
          D#
While we waste away our lives?

    C#                G#             D#
Oh I wish I could be more like you
       C#                  G#         D#
Do you wish you could me more like me?
      C#                  G#         D#
Oh I wish is I could be more like you
      C#              G#             D#
Oh I wish I could be more, could be more, could be more

```
        C#                            G#
Yeah I see you blown? at the edge of my bed
      D#
Backseat of my car, on the back of my head
 C#                               G#
I come alive when I hear you voice
        D#
It s a beautiful sound, it s a beautiful noise
C#                               G#
Yeah I see you blown? at the edge of my bed
        D#
Backseat of my car, on the back of my head
 C#                               G#
I come alive when I hear you voice
        D#
It s a beautiful sound, it s a beautiful noise
