Е
Who s gonna be the first one to start the fight?
                                                        D
Who s gonna be the first one to fall asleep at night?
Who s gonna be the last one to drive away?
Who s gonna be the last one to forget this place?
                        C G
We keep taking turns
                            Е
(ooh) Will we ever learn?
                             Α
Oh, the spaces between us
Keep getting deeper
It s harder to reach her
Even though I ve tried
Spaces between us
Hold all our secrets
Leaving us speechless
                            D
And I don t know why
                                                          A D
Who s gonna be the first to say goodbye?
  A D )
                                                           Е
Who s gonna be the first one to compromise?
Who s gonna be the first one to set it all on fire?
                                                        Е
Who s gonna be the last one to drive away?
                                                    Е
Forgetting every single promise we ever made
D
                             Α
