One True Thing

This is a great song. I can't believe it hasn't been tabbed before.

It's real easy. The song starts out clean with these chords

Intro/Verse

D A# F C

I play the F on the 8th fret and the C on the 3rd

When it starts getting heavy kick on mad distortion and palm mute the hell out of it.

These chords repeat until the interlude.

Interlude

D C A# A
