

Everybody Loves Me
OneRepublic

There s already a great tab on the intro/verses here on UG.
Though I thought I d show you how I play it.
It might not be 100% correct according to how OneRepublic play it, but this
sounds good too.
Here s my suggestion to the song.

[Intro/Verses]

[Verse]

Hail Caesar shadow on my backseat
And her friends are standing right in front of me
World wide from the Cimmaron to Turkey
Open up, said everybody loves me

C

Am

And you don t have to make a sound
Cause they got what you need, what you need
Oh, oh, oh, oh

[Verse 2]

Got love for the people that have warned you
God love all your sentimental virtue
Eight balls with the takers that ll make you
Late calls with the lovers that ll hate you

C

Am

And you don t have to make a sound
They got what you need
What you need
Make ya say

[Chorus]

E

A

Oh my, feels just like I don t try

C

Look so good I might die

N.C.

All I know is everybody loves me

E **A**

Head down, swaying to my own sound

C

Flashes in my face now

N.C.

All I know is everybody loves me

Everybody loves me

[Verse 3]

Well, I play the music don t stop till I turn gray

Stars forever like Don Suzan never fade,

He had a beautiful child, named her Desiree

Hope I m remembered for the things that I never made

C **Am**

And you don t have to make a sound

When They got what you need

Make ya say

[Chorus]

E **A**

Oh my, feels just like I don t try

C

Look so good I might die

N.C.

All I know is everybody loves me

E **A**

Head down, swaying to my own sound

C

Flashes in my face now

N.C.

All I know is everybody loves me

Everybody loves me

[Bridge]

E - chromatic slide down from the 12th fret, 6th string

E

Don t need my health

Got my name and got my wealth I

Stare at the sun

Just for kicks all by myself I

Lose track of time

So I might be past my prime

But

I m feeling oh so good

YEAH!

[Chorus]

E **A**
Oh my, feels just like I don t try
C
Look so good I might die
N.C.
All I know is everybody loves me
E **A**
Head down, swaying to my own sound
C
Flashes in my face now
N.C.
All I know is everybody loves me

Everybody loves me
