May not be 100% accurate, but I think its close. If you have any suggestions let me know:) No capo [Verse 1] I had a dream the other night About how we only get one life Woke me up right after two Stayed awake and stared at you So I wouldn t lose my mind G And I had the week that came from hell And yes I know that you can tell But you re like the net under the ledge But I go flying of the edge You go flying off as well [Pre-Chorus] And if you only die once I wanna die with [Chorus] You got something I need In this world full of people there s one killing need G And if we only die once I wanna die with you You got something I need In this world full of people there s one killing need C

[Verse 2]

And if we only die once I wanna die with you

```
Last night I think I drank too much
Call it our temporary crutch
With broken words I tried to say
Honey don t you be afraid
If we got nothing we got us (Yeah)
[Pre-Chorus]
                                  D
And if you only die once I wanna die with
[Chorus]
You got something I need
In this world full of people there s one killing need
                                                              G
And if we only die once I wanna die with you
You got something I need
In this world full of people there s one killing need
                                                             C
And if we only die once I wanna die with you
[Bridge]
I know that we re not the same
      Em
But I m so glad damn that we made it
To this time, this time, now
[Chorus]
You got something I need
In this world full of people there s one killing need
                                                              G
And if we only die once I wanna die with you
You got something I need
In this world full of people there s one killing need
                                                             C
And if we only die once I wanna die with you
