Additional Verses

Verse 2

I feel, o so filled with madness
Because of all the gladness
I get and then I leave with the sadness
Each and every passing day,
that we are away,
My life seems so far away

Verse 3

I miss just talking by the fire,
with nothing to acquire,
But love
And I miss riding down the street,
Feeling fancy free,
And nothing much to think of

Verse 4

And as go, through the history of my mind,
what's there all the time,
is you,
And as I go through the journey,
I've still had no greater time,
than when I'm with you

Additional Bridges (First bridge follows second verse)

Second Bridge (Follows third verse)

Maybe in some distant day,
I will be this free again,
I'll have nothing much to say,
Except I'm with you, so things are ok

Third Bridge (Follows fourth verse)

You keep me on my feet,
You make my life so sweet,
Yeah you make things better than all right,
You've helped me live my life

That's about it, a refrain follows every bridge. You won't be able to play this song correctly if you heard it before, as in a lot of Opal songs, the strum pattern makes the song.
