Jump on board    Take a leap of faith  
**F#m**                    **G**                **D**  
Can we feel so close now yet be so far away  
                  **F#m**                                    **G**                **F#m**                **G**  
If I could have you just once a year, let it be the longest day  
**F#m**                    **G**                **D**  
As elusive as the present I will love you either way, I will love you either way
