

Joan Of Arc

Orchestral Manoeuvres in the Dark (OMD)

JOAN OF ARC

NC (drums & clapping)

A little Catholic girl who s fallen in love
A face on a page, a gift from above

G A

She should have known better than to give her heart

D G

She should have know better than to ever part

D A D

Without me, without me

D G A

I gave her everything that I ever owned

D G A

I think she understood but she never spoke

D G A

She shouldn t ought to try to be that way

D G

She shouldn t have to go there ever again

D A D

Without me, without me

D G A

Now listen to us good and listen well

D G A

Listen to us all and everything we tell

D G A

We should have known better than to give her away

D G

We should have know better to this very day

D A D

Without me, without me

D

Now listen Joan of Arc, all youâ€™ve got to do

G

Is say the right words and I ll be coming through

D A D A

Hold you in my arms and take you right away

D G A

And now she s on her way to another land

D G A

We never understood why she gave her hand

She shouldn't ought to promise because it's just pretend

I know she doesn't mean it and she'll leave again

Without me, without me (repeat to fade)
