

**A Dream Within A Dream**  
**Oren Lavie**

**Am**  
The road stretches on from unknown destination  
**F**  
Across open streams through fields of carnations  
**Am** **F9**  
It enters a city, a building, it stretches ahead  
**E7** **Am**  
It stops at the feet, the feet of his bed  
**Am**  
He s aware of a small inclination  
**F**  
A dream in a dream, he pays no attention  
**Am** **F**  
Oranges hover and faces all over he knows  
**E7**  
Is how the dream goes

Chorus:

**Am** **C** **D** **F** **F9**  
Caught within a dream within a dream  
**Bb** **Am**  
A man within a man  
**Am** **C** **F** **Dm6**  
Caught within a thought within a thought  
**F** **Em7**  
A notion so deep, he will drown in his sleep

**Am**  
The wind whistles lower and the windows are yielding  
**F**  
The telephone rings in the opposite building  
**Am** **F**  
A voice with a likable, unrecognizable air  
**E7** **Am**  
It runs in the walls, it isn t quite there  
**Am**  
He s aware of a change in the weather  
**F**  
A dream in a dream, he ll think of it later  
**Am** **F**  
A wonderful melody line that he couldn t quite get  
**E7** **F**  
He couldn t remember, he d never forget

Chorus
