

Hindsight

Orla Gartland

Capo 4

G Em D C

Verse: **G Em D C**

Hindsight is my enemy
as I look back at the monster
that is barely recognisable as me

Things Ive said
with things Ive done,
damaging but only one
person that I need

Sorry is a sad goodbye,
and it leaves many questions why it happened
in the start

Influences shadow your decision
but I urge you block them out,
and it ll be a better turn out

Chorus: **G Em D C**

For the best of us, for the best of us, and the rest of us, well that s me
For the best of us, yes the best of us, and the rest of us

Verse: **G Em D C**

There are obstacles ahead of us
I can see them very clearly in this
Telescope, that we built together

And hand in hand together we can head on face our fears,
But if we go solo
It will only end in tears

Chorus: **G Em D C**

For the best of us, for the best of us, and the rest of us, well that s me
For the best of us, yes the best of us, and the rest of us

Bridge: **C D Em D C**

Games were played,
changes made,
rules laid down were disobeyed,

There s not one person that can fill your space.
and I m sick of putting on this brave face

I hope that it works out

Chorus: **G Em D C**

For the best of us, for the best of us, and the rest of us, well that s me
For the best of us, yes the best of us, and the rest of us, well that s me

Outro: **C D Em D C**

Cause I can t promise that it won t happen again,
but I can sure as hell try with a change
