```

[Intro:] G F Em Eb

```
G                         F
I was hoping we d make real progress
Em                  Eb
But it seems we have lost the power
G               F
Any tiny step of advancement
    Em                    Eb
Is like a raindrop falling into the ocean

G                              B
We re running on the spot always have always will?
              C                         Cm                G F Em
We re just the next generation of the emotionally crippled
Eb
We re just running on the spot

G                         F
Though we keep piling up the building blocks
Em                    Eb
The structure never seems to get any higher
G               F
Because we keep kicking out the foundations
    Em                    Eb
And stand useless while our lives fall down

G                    B
I believe in life and I believe in love
              C                         Cm                G F Em
```

```
But the world in wich I live in keeps trying to prove wrong
Eb
We re just running on the spot

B7                    Em
Out the pastures we call society
B7                              Em
You can t see further than the bottom of your glass
C
Only you but easily shocked
D
You get all violent when the boat gets rocked

Eb                          G F Em
We re just running on the spot

We re just running on that

G                         F
Just like sheep little lambs into the slaughter
Em                 Eb
Don t fully grasp what exactly is wrong
G               F
Truth is you never cared still
    Em                  Eb
You get all violent when the boat gets rocked

G                         F
Intelligence should be our first weapon
Em                 Eb
And stop reveling in rejection
G                         F
And follow yourselves not some ageing drain brain
    Em                  Eb
Whose quite content to go on feedind your garbage

G                               B
We re running on the spot always have always will?
                C                   Cm                  G F Em
We re just the next generation of the emotionally crippled
Eb
We re just running on the spot
We re just running on that
On the spot
We re just running on that
```
