**C**                                 **Am**                                 **F**  
For your precious love means more to me  
**G**                                 **C**  
Than any love could ever be  
**C**                                 **Am**                                 **F**  
For when I wanted you I was so lonely and so blue  
**G**                                 **C**  
For that s what love will do

Darling, I m so surprised,  
Oh, when I first realized  
That you were fooling me  
Darling, they say that our love won t grow

I just want to tell them that they don t know  
For as long as you, long as you are loving me  
Our love will grow wider, deeper than any sea

**D**                                 **Bm**                                 **G**  
And all the things in the world, in this whole wide world  
   **A**                                 **C**  
Is just that you would say that you d be my girl

(Wanting you) Wanting you,  
(I m lonely and blue) Whoa, lonely  
That s what love will do

For your precious love means more to me  
Than any love could ever be  
For when I, I wanted you I was so lonely and so blue  
That s what love will do
