

**Is Anybody Home**  
**Our Lady Peace**

name: Beret Yansho

artist: Our Lady Peace

SongTitle: Is anybody home?

Tabs: Ok, this that new Our Lady Peace song, that really rocks. Anyway it s pretty easy, just tune 1/2 step down, and play everything barred, the only two chords that should give you even moderate trouble are Dmaj7 (557675) and A/G (4775xx). I didn t learn the solo because I usually just improve them and so does Our lady peace (and for those who don t know, the woo-ooo effect is done with a voice box)

**F#m**                      **D**                      **C#m**  
Goodbye, the future s sold out  
**A**                      **A/G**  
There s no use screaming  
**F#m**                      **D**                      **C#m**  
Who thought we d ever get this far

(bass slap muted)

(Same chords for the voice pedal part)

**F#m**                      **D**                      **C#m**  
Tonight, your faith has come down  
**A**                      **A/G**  
To money & a TV  
**F#m**                      **D**                      **C#m**  
Psychics who ve never been to mars  
                    **A**                      **A/G**  
And nazis breast feeding  
**F#m**                      **D**                      **C#m**  
I know you must be upset  
**A**                      **A/G**  
I can t find meaning  
**F#m**                      **D**  
I m sorry, we re sorry  
**C#m**                      **A**                      **A/G**  
We re all scared, all scared

**A**                      **Dmaj7**  
Hey is anybody home  
                    **Bm**                      **G**  
Has anybody wasted tears on the loneliness  
  
That everyone becomes

**F#m**                      **D**                      **C#m**

Goodnight, the truth has come out

**A**                      **A/G**

Everyone s needy

**F#m**                      **D**                      **C#m**

White teeth, a ticket to meet god

**A**                      **A/G**

Be all that you envy

**F#m**                      **D**                      **C#m**

The shotgun under your bed has

**A**                      **A/G**

Started breathing

**F#m**                      **D**

You shot it, you shot it

**C#m**                      **A**                      **A/G**

I m bare, I m bare

(Same as before)

Hey, is anybody home

Has anybody painted fear

On the bedroom walls that save us from...

Keep it real, Yansho forever.
