

**Feels Like Saving The World
Outlandish**

4 Chords are used in this song.

Original: Cm - Ab - Eb - Bb (Piano friendly)

Half step down: Bm - G - D - A (Guitar friendly - put capo on first fret to hit the original tune)

8 halves down: Em - C - G - D

(Beginner guitar - no bar chords - more singing friendly to some - scale with a capo)

Repeat these 4 chords through out the song in this order.

I will use the half step down version here as I suspect that most people will want

to use that with a capo on 1st fret,

but if you would rather use one of the other versions then simply switch the chords.

Feels Like Saving The World - Outlandish - Capo 1st fret

Under snow full of ash
Draw to you like the 5 draws
Cold hands like doing crash
Wanna say I love you sometimes, but it ain t happenin
Other times Iâ€™m back in the cold, frost appears not in the winter only
It gets so cold, still we keep comin out for more

Bm

We just let it pourinâ€™ right

G

See the more we hide behind slammin doors tomorrow surely we ll die

D

I can t believe they would flee so easily we ainâ€™t love deprived

A

Girl we just make somethinâ€™ divine, less perfect, more human with time

Until then I try so go ahead now

Bm

G

You may shoot, you may cut , you may kill me girl

D

Your words, your eyes, in and out of this crazy world

A

And still I rise, like it I rise.

Bm

G

She was stuck between a rock and a hard hard place
Came home, runinâ€™ wild, in and out of emptiness
And still you rise, like it you rise.

I wanna tell you sometimes, it feels like we ve killed the world
Don t wanna leave you like no mercy left at all
Then I donâ€™t know where the love, will come back into our lives
It feels like saving the world, saving the world
You and I

Me matan
Estos momentos me matan
Me ponen al borde
De un grito me sacan
De quisio ni locura ni la drogas me la curan
Y aunque el cielo pa me juran
Se lo soy lo que soy

Soy el que duda
Se me chiebra la calma
Y ahora siento que sigo
Esta flecha se almueye
Al final del camino
Y al final no me sofoco
El aire puro respiro
Al sentir tu aroma,
Despertar contigo

A thousand roses isolated and everybody knows
We cry, we try, try to get it together for sure
And still we ll rise, like it we ll rise
Sugaâ€™ sugaâ€™, i was dreaminâ€™ last night bout you

Wrapped up in real talk I will not lose

And still we ll rise, and still we ll rise

Like it we ll rise
