## Feels Like Saving The World Outlandish

4 Chords are used in this song.

Original: Cm - Ab - Eb - Bb (Piano friendly)

Half step down: Bm - G - D - A (Guitar friendly - put capo on first fret to hit the original tune)

8 halfs down: Em - C - G - D

(Beginner guitar - no bar chords - more singing friendly to some - scale with a capo)

Repeat these 4 chords through out the song in this order.

I will use the half step down version here as I suspect that most people will want

to use that with a capo on 1st fret,

but if you would rather use one of the other versions then simply switch the chords.
