

**Feels Like Saving The World  
Outlandish**

4 Chords are used in this song.

Original: Cm - Ab - Eb - Bb (Piano friendly)

Half step down: Bm - G - D - A (Guitar friendly - put capo on first fret to hit the original tune)

8 halves down: Em - C - G - D

(Beginner guitar - no bar chords - more singing friendly to some - scale with a capo)

Repeat these 4 chords through out the song in this order.

I will use the half step down version here as I suspect that most people will want

to use that with a capo on 1st fret,

but if you would rather use one of the other versions then simply switch the chords.

Feels Like Saving The World - Outlandish - Capo 1st fret

Under snow full of ash  
Draw to you like the 5 draws  
Cold hands like doing crash  
Wanna say I love you sometimes, but it ain t happenin  
Other times Iâ€™m back in the cold, frost appears not in the winter only  
It gets so cold, still we keep comin out for more

**Cm**

We just let it pourinâ€™ right

**G#**

See the more we hide behind slammin doors tomorrow surely we ll die

**Eb**

I can t believe they would flee so easily we ainâ€™t love deprived

**Bb**

Girl we just make somethinâ€™ divine, less perfect, more human with time

Until then I try so go ahead now

**Cm**

**G#**

You may shoot, you may cut , you may kill me girl

**Eb**

Your words, your eyes, in and out of this crazy world

**Bb**

And still I rise, like it I rise.

**Cm**

**G#**

She was stuck between a rock and a hard hard place  
Came home, runinâ€™ wild, in and out of emptiness  
And still you rise, like it you rise.

I wanna tell you sometimes, it feels like we ve killed the world  
Don t wanna leave you like no mercy left at all  
Then I donâ€™t know where the love, will come back into our lives  
It feels like saving the world, saving the world  
You and I

Me matan  
Estos momentos me matan  
Me ponen al borde  
De un grito me sacan  
De quisio ni locura ni la drogas me la curan  
Y aunque el cielo pa me juran  
Se lo soy lo que soy

Soy el que duda

Se me chiebra la calma  
Y ahora siento que sigo

Esta flecha se almueye  
Al final del camino

Y al final no me sofoco  
El aire puro respiro  
Al sentir tu aroma,  
Despertar contigo

A thousand roses isolated and everybody knows  
We cry, we try, try to get it together for sure  
And still we ll rise, like it we ll rise  
Sugaâ€™ sugaâ€™, i was dreaminâ€™ last night bout you

Wrapped up in real talk I will not lose  
And still we ll rise, and still we ll rise  
Like it we ll rise

I wanna tell you sometimes, it feels like we ve killed the world  
Don t wanna leave you like no mercy left at all  
Then I donâ€™t know where the love, will come back into our lives  
It feels like saving the world, saving the world  
You and I

We saved the world, we killed the world  
We saved the world, we killed the world  
We saved the world, tonight (we saved the world tonight)

We saved the world, we killed the world  
We saved the world, we killed the world  
We saved the world, tonight... yearh...

I wanna tell you sometimes... sometimes... sometimes, it feels like we ve killed the world  
Don t wanna leave you like no... no... no mercy left at all  
Then I donâ€™t know where the love... love... love, will come back into our lives  
It feels like saving the world, saving the world  
You and I... me matan me matan me matan... uhhh you...
