

**Whisper**  
**Oval Opus**

Off the Album Wagon Wheel , this is a great song from a great band.

Capo 3rd fret

Intro: **C F C F C F C F**

**C**

Said a whisper last night while I held you,

**F**

and I told you that I needed you forever

**C**

I told you everything I want to live for,

**F**

and how we could be

**C**

When the words come to me and it s magic you know,

**F**

and I find that I m rhyming away where I go,

**C**

and I feel that the wisdom is coming,

**F**

and I know...

**C**

Magic in the way you move

and every time I tell you that

**F**

I want to give you something

for something so true,

**C**

and the way that you can know me

and the way that you can tell me,

**F**

and you know that I am searchin

and I m searchin for you,

**C**

and the way you re gonna love me when I go up and tell you that

**F**

I m gonna need you when I get there,

**C**

In my dreams, in my futures, in my prayers too,

**F**

and like a whisper in the wind

**Am**

I can see you there,

**G F**

Before I cry

**Am G**

It doesn't matter where I'm going

**F**

tonight...

(silence) **C**

You're gonna be there with me.

Interlude: **C F C F**

**C**

Took you to the park and

I tried to tell you something

**F**

while we're looking at the sun

as if we're staring at the moon,

**C**

and I can see the stars,

and the bark on the trees

**F**

I can see the way they move,

and the way they feel

**C**

When I look into your eyes,

and I find you there,

**F**

I can see that it's magic

that's in the air,

**C**

and it's something I do,

and it's something I say,

**F**

while the hands on the clock

they are ticking away

**Am**

And I feel

**G F**

that I can love you forever,

**F Am G**

if you just let me have the chance

**F**

I'll love you,

forever....

**C F**

Be with me

**C F C F C F**

**C**

I can see you in the mountainside

**F**

I can see you in the wind;

**C**

the way that the ocean is flowing when I see the sun

**F**

setting in the west again

**C**

and everything that I m goin on though I m not there

**F**

Oh I m driving up the road with all my cares,

**C**

and my mind is racing a million ways,

**F**

I can see that you re...

**Am**

In my mind today

**G**

**F**

you know that I miss you

**F Am**

**G**

Soon I ve got to come back home

**F**

to see you...

**C F C F C x10**

You re my girl
