

**Bombshell Blonde**  
**Owl City**

The entire songs chords are, **Ebm** , **C#** , **F#**, **B**. Unsure about some of the parts but thats what I came up with.

That blonde, she s a bomb, she s an atom-bomb  
Rigged up and ready to drop.  
Bad news, I m a fuse and I ve met my match  
So stand back it s about to go off.

That vixen, she s a master of disguise,  
I see danger when I look in her eyes,  
she s so foxy, she could lead to my demise,  
So I m running cause I ve run out of time,

She s a bombshell blonde, wired up to detinate  
I m James Bond, live to die another day  
Bombshell blonde, high explosive dynamite  
She s all I want so I-I m on a mission tonight

Her love is a drug mixed with exticy,  
and her charm is spiked with a spell.  
A hot mess in a dress gets the best of me,  
she s ice cold but she s making me melt.
