Intro: **C F** x2

C F Am G
There were days when each hour was a war I fought to survive
C F G F
There were nights full of nightmares and I dreaded closing my eyes
C F Am G
There were skies that burst open with a downpour to drown me alive
C F G
But the world took a spark like a match in the dark and the fire brought me
F
to life
C F Am

So I m fanning the flames to climb so high cause there s no other way we
C G
can stay alive

C G Am F
Cause we re burning bright as we all unite
C G Am
And when it s all said and done we ll shine like the sun so don t let the
F
fire die

C G Am F
And we ll watch the sky as it fills with light
C G Am F
And though the embers are new, whatever you do just don t let the fire die

C F Am G
And you ll find, there ll be mornings when the ashes and embers are cold

C F G F
But you ll fight with a passion and you ll never stop cause you know

C F Am G
Yeah you know it gets better and your story is yet to be told

C F
Every push, every shove, every war, every love

G F
Yeah the coals are beginning to glow

C F Am
So I m fanning the flames to climb so high cause there s no other way we

C G
can stay alive

C G Am F
Cause we re burning bright as we all unite

C G Am
And when it s all said and done we ll shine like the sun so don t let the
