## Take It All Away Owl City

there was a shot in the dark I was caught by surprise

D
A
there was a hole in my heart, there were tears in your eyes

D
A
and there was nothing to say cause you made up your mind

D
A
so I guess what you meant you left was goodbye

D

so if youre gonna go

Α

and leave me in a lonely grey

D

I wont let it show

Α

until you finally float away

D & A are literally the only chords in the whole song. Repeat for other verses. I play them as barr chords.
