intro

its something like this.

F Bb
Light years will burn

Eb Ab
fore i return

I left it all behind
with no concern

For things back then can t be again
Forever trapped in time that never bends

Db Eb Ab
She waits for signals i might send

Db Eb Ab
But they don t come so she pretends

Db Eb F Bb Db Eb
I ran away but i ll be back yesterday

F
No turning back

Bb Eb Bb
Once you re lost you never will be found

No gravity
Never get my feet back on the ground

Love and escape do not compute
I see the photograph before you shoot

I m standing still but still i m spinning
This journey ends at the beginning
It seals my fate in the great figure eight

No turning back
Once you re lost you never will be found
No gravity

Never get my feet back on the ground
No turning back
Once you re lost you never can be found
No gravity
Never get my feet back on good ground
