Distortion (I tap here, some people pick the note)

[Main Riff]

I ve seen many people striking the fifth fret of the E string and hammering on seven...however, if you think its easier you can hammer on the A and D string, as shown in paranthesis. Also when playing this there are parts where you have to stop the strings from ringing, under which I ll put a star, you should be able to figure it out tho.

In the belowriff u have to bend the E string(fretted 2) to G, so its about a quarter bend.

```

```

[Verse]

This isn t actually palm muted, as I said before, its played open but with the volume turned down..however..I still palm mute it live because u don t really have time to toy with the volume.
