Ama j7 E B F#m7

Ama j7 E B F#m7

Ama j7

When the night has gone

E

And the shadows clear

B

When I hear my song

Will the grave be near

Ama j7

So say what you want

E

but I m the rising tide

B

I m no force of god

F#m7

My thousand lies

Ama j7

I take what I want

E

cause I m the frightening sky

B

I m a selfish man

F#m7

Designed to die

[Chorus]

Ama j7

But is it heaven up there

E

Is it heaven up there

B

Is it heaven up there

F#m7

cause it s hell down here

[Verse]

Ama j7

Believe in existence spent

E

To separate us from them

B

To know that your blood runs thin

F#m7

Is to live with the truth within

Ama j7

So scrape up the bruise I wear

E

Eradicate all my fears

B

Prepare me to walk these stairs

F#m7

I don t know what my future is

I don t know what my future is

[Chorus]

Ama j7

Is it heaven up there

E

Is it heaven up there

B

Is it heaven up there

F#m7

Is it heaven up there

[Bridge]

Ama j7

Say I ve been blind

E

For the use of my time

B

Wanna be a better man

F#m7

On the ground where I stand

Ama j7

There s something out there

E

Just know that I ve cared

B

Do this side by side

F#m7

Motion with the tide

[Instrumental]
