

When Youre Gone
Paloma Faith

F

When I m with you my heart sings

C

of a joy and everything washes

Dm

over me and cleans me til I m

Bb

shining

F

For your touch there are no words

C

I fly with high hopes in the birds

Dm

And I know there s nothing better cause I m

Bb

smiling

Bb

Everyone I ve ever loved has

F

left me lonely

Dm

Every time I let it go

C

I m high and dry

Bb

Every time I think

F

I m one and only

Dm

I find myself alone not knowing

C

why

F

All the mystery and the magic

C

You light up what once was tragic

Dm

And I know that I will miss you

Bb

when you re gone

F

I could never have imagined

C

All the heavens pour with passion

Dm

But I know that I will miss you

Bb

when you re gone

F

You tell me that you are different

C

I ll be saved and I ll be lifted

Bm

It s not easy but I m trying

Bb

to believe you

F

All the angels lost their halos

C

I have no choice but to let go

Dm

There are times when I feel paper thin and

Bb

see-through

Bb

Everyone I ve ever loved has

F

left me lonely

Dm

Every time I let it go

C

I m high and dry

Bb

Every time I think

F

I m one and only

Dm

I find myself alone not knowing

C

why

F

All the mystery and the magic

C

You light up what once was tragic

Dm

And I know that I will miss you

Bb

when you re gone

F

I could never have imagined

C

All the heavens pour with passion

Dm

But I know that I will miss you

Bb

when you re gone

F, C, Dm, Bb

When you re gone [x2]

You re gone

Bb

Everyone I ve ever loved has

F

left me lonely

Dm

Every time I let it go

C

I m high and dry

F

All the mystery and the magic

C

You light up what once was tragic

Dm

And I know that I will miss you

Bb

when you re gone

F

I could never have imagined

C

All the heavens pour with passion

Dm

But I know that I will miss you

Bb

when you re gone

F, C, Dm, Bb

When you re gone [x2]

You re gone

F

When I m with you my heart sings

C

of a joy and everything..

Dm

And I know that I will miss you

Bb

when you re gone.
