Cmon
```

Panic! At the Disco

C

It's getting late, and I

Em

Cannot seem to find my way home tonight

Am

Feels like I am falling down a rabbit hole

Falling for forever, wonderfully wandering alone

C

What would my head be like

If not for my shoulders

Em

Or without your smile

May it follow you forever

Αm

May it never leave you

To sleep in the stone,

₹

May we stay lost on our way home

[Brendon]

C Em Am

C'mon, c'mon, with everything falling down around me

G

I'd like to believe in all the possibilities

[Nate]

C

If I should die tonight

 \mathbf{Em}

May I first just say I'm sorry

Am

For I, never felt like anybody

I am a man of many hats although I

F

G,F

Never mastered anything

C

When I am ten feet tall

Em

I've never felt much smaller since the fall

Am

Nobody seems to know my name So don't leave me to sleep all alone May we stay lost on our way home? [Brendon and Nate] C'mon, c'mon, with everything falling down around me I'd like to believe in all the possibilities [Brendon and Nate] Em Αm C'mon, c'mon, with everything falling down around me I'd like to believe in all the possibilities [Brendon] Am Try not to mistake what you have with what you hate [Brendon and Nate] It could leave, it could leave, come the morning [Nate] Am Celebrate the night It's the fall before the climb [Brendon and Nate] Shall we sing, shall we sing, til the morning [Brendon] C F Am I fall forward, you fall flat [Brendon and Nate]

Am

And if the sun should lift me up $\mathbf{F} \quad \mathbf{C} \quad \mathbf{G} \quad \mathbf{C}$

Would you come back? C mon!

Em, Am, F, G

C Em Am

C'mon, c'mon, with everything falling down around me

F G C

I'd like to believe in all the possibilities

[Brendon and Nate]

Em Am

C'mon, c'mon, with everything falling down around me

F G F

I'd like to believe in all the possibilities

[Brendon and Nate]

C Em Am

So c'mon, c'mon, with everything falling down around me

F G C

I'd like to believe in all the possibilities

It's getting late and I, cannot seem to find my way home tonight.

[Brendon]

[Brendon]
