

LA Devotee

Panic! At the Disco

C#m

You got two black eyes from loving too hard

A

And a black car that matches your blackest soul

E

I wouldn't change ya, oh oh

Wouldn't ever try to make you leave, no

C#m

The neon coast was your sign

A

And the Midwest wind with Pisces rising

E

Wouldn't change ya, oh oh

Wouldn't ever try to make you leave, no

B9 A

Static palms melt your vibe

B9 A

Midnight whisperings

C#m

The black magic of Mulholland Drive

A

Swimming pools under desert skies

E

Drinking white wine in the blushing light

Just another LA devotee

C#m

Sunsets on the evil eye

A

Invisible to the Hollywood shrine

E

Always on the hunt for a little more time

Just another LA devotee

C#m

You got bleached out eyes from the valley sand

A

And the black tar palms keep weeping your name

E

I couldn't change ya, oh oh

Couldn't ever try to make you see, no

C#m

The high rise lights read your rights

A

And a downtown storm with Aries rising

E

Couldn't change ya, oh oh

Couldn't ever try to make you see, no
