Promises
Parachute Band

Verse 1:

```
Bbm             F#           C#            G#
I have decided I believe it,
Bbm                    F#                        C#        G#
The clouds cannot defeat the sun.
Bbm                  F#             C#                   G#
The truth remains, your words wont fail,
         Bbm              F#                      C#        G#
So Ill rise again believing every one.
```

Verse 2:

```
Bbm              F#           C#          G#
Our conversations I remember,
Bbm                 F#            C#         G#
And I hang on to every word,
    Bbm            F#           C#         G#            F#
Cos I have faith youll light my way again
```

Chorus:

```
C#                                       Bbm          F#
I believe your promises are yes and amen.
C#                                       Bbm          F#
I believe your promises are yes and amen.
C#                                       Bbm                       F#
I know you said it once and I believed you then,
          G#            F#
So I still believe it.
```

Verse 3:

```
Bbm                      F#              C#           G#
You showed an army to the prophet,
Bbm              F#                     C#            G#
Revealed a plan among the stars.
      Bbm          F#           C#       G#          F#
You see the things that I cant see alone.
```

(Chorus)

Bridge:

```
Bbm            C#               G#
I want in, I want in           (4x)
```

(Chorus)
