

**Disappear  
Parachute**

Hopefully this is close enough! I think it sounds all right :)

**Em**            **G**  
Take the phone  
          **G**  
It s out there all alone  
                          **Bb**        **F**  
Left it on the table where it was  
**Em**            **G**  
Keep the car  
          **G**  
The keys are in the front  
                                  **Bb**                    **F**                    **G**  
It s out there on the street right where I parked

**Em**                    **C**  
And I know I don t know much  
          **Em**                    **G**                    **C**  
But I know that a man feels many things  
          **Em**                    **C**  
it s a fleeting urge to run  
          **G**    **C**  
Like a bird flying by on a summer breeze  
          **Em**                    **C**    **G**  
Like the sound of a train if you re listening  
          **D**  
It just fades in  
          **G**  
then it disappears

**Em**            **G**  
Mark the map  
**Em**            **C**                    **G**  
Pack a couple bags  
          **B**                    **Bb**                    **F**                    **G**  
Treat myself a ticket, don t come back

**Em**                    **C**  
And I know I don t know much  
          **Em**                    **G**                    **C**  
But I know that a man feels many things  
          **Em**                    **C**  
It s a fleeting urge to run  
          **G**    **C**  
Like a bird flying by on a summer breeze  
          **Em**                    **C**    **G**

Like the sound of a train if you re listening

**D**

It just fades in

**G**

then it disappears

**D C G**

If I could disappear

**D**

**Em**

You don t have to know why you re going

**Cadd9**

**G**

just why it is you wanna leave

**D C G**

If I disappear

**D**

**Em**

You don t have to know where you re going

**Cadd9**

**G**

just where it is you wanna be

**D**

**Em**

You don t have to know where you re going

**Cadd9**

**G**

just where it is you wanna be

**Em**

**C**

And I know I don t know much

**Em**

**G**

**C**

But I know that a man feels many things

**Em**

**C**

It s a fleeting urge to run

**G**

**C**

Like a bird flying by on a summer breeze

**Em**

**C**

**G**

Like the sound of a train if you re listening

**D**

It just fades in

**G**

then it disappears

**Em G**

Walk away

**G**

Leave it all behind

**Bb**

**F**

**G**

I dream of the escape but never try
