

Winter Love  
Parachute

**B** **E - B**  
Oh it s one more year of waiting,  
One more month of all alone,  
One more day is fading,  
**F#** **E - B**  
just bring me back my winterlove.

**B** **E - B**  
Spring goes by so slowly,  
Summer cant come fast enough,  
Fall can leave me lonely,  
**F#** **E - B**  
Just bring me back my winterlove.

**B** **E - B**  
Oh i slept in every city,  
Drove through every countryside  
Made friends with the shadows  
**F#** **E - B**  
Looking for a place to hide

**C#m** **E - B**  
And ive crossed every ocean  
and ive climbed every mountaintop  
**B** **E - B**  
Oh, but nothing seems to hold me  
**F#** **E - B**  
hold me like my winterlove

**E F# G#m - B**  
and the world keeps going  
as you kiss me so slowly  
as your blue eyes they say goodbye

**C** **F - C**  
oh the snow is finally falling  
when i walk the streets, i think of her  
i can hear the choir singing  
**G** **F - C**  
as i pause beside the open door

**C** **F - C**  
and the church bells sound above me  
and the people pass me one by one  
oh its midnight now on christmas  
**G** **F - C**  
and im here without my winterlove

**C     F - C**

yeahhhhhhhhhh

**G                     F - C**

without my winterlove

**C                                     F - C**

when the angels come to take you

when your plane takes off from washington

oh, ill be right where you left me

**G                                     F - C**

ill wait for you my winterlove

oh ill wait for you my winterlove

oh ill wait for you my winterlove
