D

G

Light me up up up

Got my girls with me

we re running free

Lovin life and we don t look
back

Yeah there s gotta be

some chemistry

For a boy to steer me off this track yeah

I see what you do

Clocked your every move

Think your deal is sealed

but you ve got so much to prove

Need to take me higher

Maybe I won t deny ya

But it s gonna take more

Oooh

You wanna get me close

Oooh

In your fantasy

In the dark

Hopefully

Pursuin

What you see

You gotta, Your gotta

You gotta light me up

I m not feelin a romantic boy

but if you think you re worth it

Light me up

When you get my head t-turnin

boy you re learnin learnin learnin

Light me up

You gotta smoke me like a cigarette
and keep me burnin burnin
Light me up up up
Light me up up up

Yeah we re coming through
I m seein you
You make your move
but I don t want that
I said you
need to take me higher
maybe I won t deny ya
but it s gonna take more

Ooh
You wanna get me close
Ooh
In your fantasy
In the dark
Hopefully
