(Sorry to bore you all with this but you really should read as it helped me

Notes for solo

This is a very well executed peice of tapping there are about 5 or 6 different techs here

Its very hard to begin learning this but a journey of 1000 miles begins with 1 step

\* finger must be on a 15 on b string with POINTING finger on a 14 on g string using right hand to tap

in this and peicew 2 you are in fact tapping back on yourself

and i will gaurantee you will tap your own finger for ages

\* finger bar 14 on both G string & D String use same tech as 1

Please also note the following i use to make this correct

1.I was lucky to meet gregor and ask him in person for hints on the peices i was stuck on!!!!v c

2.A german Channel called WDR has live bands every weekend PL have been on twice the camera was on gregor the whole time (SO I KNOW THIS IS PRETTY MUCH CORRECT)

\* Like FU\*\* and you will get it

4.It took me about 1 year to master this solo so dont give up

If you need any help at all or a Comment please email me on

\*

Go Cowboys

see ya later

ps to tab this took Fuc\*\*\* 4 hours so enjoy
