

Pool  
Paramore

[Intro] **F C G**

**F**  
As if the first cut wasn't deep enough  
**C** **G**  
I dove in again cause I'm not into giving up  
**F**  
Could've gotten the same rush from any lover's touch  
**C**  
Why get used to something new?  
**G** **F**  
Cause no one breaks my heart like you  
**C**  
And you kiss me, and you wish we could see what happens next  
**G** **F**  
For a moment, I can forget what happens in my head  
**C**  
If I doubt you, will you come through with a happy second chance?  
**G**  
A happy ending  
But this time you don't leave me sinking

[Refrão]

**C G F**  
I'm underwater  
With no air in my lungs  
**C G F**  
My eyes are open  
I'm done giving up  
**C Em F**  
You are the wave  
I could never tame  
**C G F**  
If I survive  
I'll dive back in

**F**  
As if the first blood didn't thrill enough  
**C** **G**  
I went further out to see what else was left of us  
**F**  
Never found the deep end of our little ocean  
**C**  
Drain the fantasy of you

**G**

Headfirst into shallow pools

**F** And I wonder, is it better to get it over with? **C**

**G** The illusion, can shatter before we begin **F**

If you re really sorry

**C** Happy second chance, I think I could forgive

**G** This time you won t leave me sinking
