Keep On Walking
Passenger

Keep On Walking chord
Passenger *

F#
Last night I couldnâ€™t sleep
                    B
I got up and started walking
F#
Down to the end of my street
          C#
And on into town
      F#
Where I had no one to meet
                 B   **Bm**
And I had no taste for talking
        F#
Seems Iâ€™m talking my whole life
   C#   **F#**
Itâ€™s time I listened now

      F#
Well, I walked past the late night boys
                          B
With their bottles in their doorways
    F#
And I walked past the business men
                     C#
Sleeping like babies in their cars
     F#
And I thought to myself for some
                      B **Bm**
You may be lost in more ways then one
        F#
But Iâ€™ve a feeling that itâ€™s more fun
        C#   **F#**
Then knowing exactly where you are

F#   **B**
And like a storm

```
         F#
Carried on the river
           B
And like a boat
                C#
Sailing on the sea
             F#
And I keep on walking
             B        Bm
Oh, I keep on walking
       F#              B                 Bm
Till I find that old love or that old love
C#          F#
Comes to find me

   F#
I walked into the morning
                                           B
Felt the warm sunlight forming on my shoulders
          F#
Cause it hit me with no warning

Like a summer sky a storming
         C#
In my lungs
           F#
Ain't it funny how the kids walk by
                                     B     Bm
Doing anything to make themselves look older
            F#
While the women spend their money on
C#                               F#
Anything that makes them look young

F#            B
And like a storm
                F#
Carried on the river
           B
And like a boat
                C#
Sailing on the sea
              F#
And I keep on walking
              B        Bm
Oh, I keep on walking
       F#              B                 Bm
Till I find that old love or that old love
C#          F#
Comes to find me

F#           B
Oh, Lord Lord
```

```
          F#
Oh, Lord Lord
            B
Oh, Lord Lord
          C#
Oh, Lord Lord

F#              B
And like a storm
                  F#
Carried on the river
            B
And like a boat
                C#
Sailing on the sea
                F#
And I keep on walking
                B       Bm
Oh, I keep on walking
        F#                          B
Till I find that old love or that old love
C#          F#
Comes to find me

        F#                          B
Till I find that old love or that old love
C#            F#
Comes to find me

* Alternate

Capo V

F#    = C#
B   = F#
C#    = G#
Bm  = F#m

Set8
