

**Its Not My Fault Im Happy**  
**Passion Pit**

[Verse]

**G** **D**  
Sorry I couldn't be there  
**C** **Em**  
I was tied to a rocking chair  
**C** **Em** **G** **D**  
I was beat down to a pulp rocking back and forth somewhere  
**G** **D**  
If you knew, if you saw  
**C** **Em**  
you'd have said it was the final straw  
**C** **Em** **G** **D**  
That my life was bound and tethered on a porch by the shore

[Pre-Chorus]

**C**  
But there's no no no no  
**Em** **D**  
easy way to tell them so, the things you know  
**C**  
and run run run run  
**Em**  
when they say they think they know  
**D**  
exactly so

[Chorus]

**G** **D**  
It's not right, it's not right  
**Em** **C**  
am I the only one who sees us fight?  
**G** **D**  
What are we? Who are they?  
**Em** **D**  
Who says those...don't deserve to care  
**G** **D**  
Well it's the numbers it's the numbers we don't stand a chance  
**Em** **C**  
So long as they're around you're just another soul in a bed  
**G** **D**  
it's not fair, it's not fair, it's not fair, it's not fair  
**Em** **C**  
still I'm the only one who seems to care.

[Verse]

**G** **D**  
It's funny being funny

C                  Em  
makes you feel like up and running  
          C                  Em                  G          D  
When your past lingers like rain clouds casting shadows below  
          G                  D  
I could live with so many burdens  
          C                  Em  
I take all your hope and yearning  
          C                  Em  
But there s nowhere, hide and take me  
          G                  D  
from their petty little woes

[Pre-Chorus]

          C  
I used to glow glow glow glow glow  
          Em  
Once I had a life to show  
          D  
A love they know  
          C  
They re slow slow slow slow slow  
          Em  
so slow that they never know  
          D  
Where I go

[Chorus]

          G                  D  
It s not right, it s not right  
          Em                  C  
am I the only one who sees us fight?  
          G                  D  
What are we? Who are they?  
          Em                  C  
Who says those...don t deserve to pay  
          G                  D  
Well it s the numbers it s the numbers we don t stand a chance  
          Em                  C  
So long as their around your just another soul in a bed  
          G                  D  
it s not fair, it s not fair, it s not fair, it s not fair  
          Em                  C  
still I m the only one who seems to care.

[Bridge]

          G                  D  
I know that it s always something  
          Em                  C  
I m just working with what I ve been given  
          G                  D  
It s not my fault I m happy  
          Em                  C

Don t call me crazy I m happy

[Chorus]

**G**                                  **D**  
It s not right, it s not right  
          **Em**                                  **C**  
am I the only one who sees us fight?  
          **G**                                  **D**  
What are we? Who are they?  
          **Em**                                  **C**  
Who says those...don t deserve to care  
          **G**                                  **D**  
Well it s the numbers it s the numbers we don t stand a chance  
          **Em**                                  **C**  
So long as their around your just another soul in a bed  
          **G**                                  **D**  
it s not fair, it s not fair, it s not fair, it s not fair  
          **Em**                                  **C**  
still I m the only one who seems to care
