

**Three Cigarettes In An Ashtray**  
**Patsy Cline**

[Verse]

**C**            **G7**                            **C**  
Two cigarettes in an ashtray  
                         **F**                            **C**  
My love and I in a small cafe  
                         **F**  
Then a stranger came along  
                         **C**                            **A7**  
And everything went wrong  
                         **D7**    **G7**  
Now there s three cigarettes in the ashtray

[Chorus] (x2)

**C**                            **F**                            **C**  
I watched her take him from me  
                         **F**    **C**  
And his love is no longer my own  
**F**  
Now they are gone  
                         **C**            **A7**  
And I sit alone  
                         **F**                            **G7**                            **C**  
And watch one cigarette burn away
