

**Em**  
 Baby dont go!  
**G** **D** **A**  
 Come back little star and take me with you in the night  
**Em** **D**  
 Watching everyone we know

**A** **G**  
 Casting shadows in the light  
**Em** **D**  
 Baby dont go, take me with you  
**A** **Bm**  
 We can chase down the sunrise or disappear  
**Em** **D** **A** **G**  
 With our wishes joined together leave me lying lonely here  
**Em** **D** **A** **G**  
 Lying lonely here, broken shutters flapping in the rain  
**Em** **D**  
 Winds crying lonesome breeze,  
**A** **G**  
 Oak trees snapping from the strain  
**Em** **D**  
 I just wanna stay  
**Bm** **G**  
 In that better time and place  
**Em** **D**  
 Chasing bugs in your grannys yard  
**A** **G**  
 Before you disappeared into time and space  
  
**D**  
**Em**  
 Baby dont go!  
**G** **D** **A**  
 Come back little star and take me with you in the night  
**Em** **D**  
 Watching everyone we know  
**A** **G**  
 Marching there together as their dreams take flight  
**Em** **D**  
 Baby dont go, take me with you  
**A** **Bm**  
 We can chase down the sunrise and disappear  
**Em** **D** **A** **G**  
 Have some wishes join together and I could wish to have you here  
**Em** **D** **A** **G**  
 Wish to have you here  
**Em**  
 Baby dont go!  
**D** **A** **G**  
 Come back little star  
**Em**  
 Oh baby dont go!  
**D** **A** **G**  
 Come back little star  
  
**D**
