F

that was years ago

```
Wild Eyes
Paul Baribeau
Intro:
            Cadd9
Am
           Asus4
C
     saw the lights from the police car
Am
            splash across the front yard
С
            dance across your t-shirt
Am
            while we ran out the back door
G
                                                                     Asus4
       i don t think my heart ever beat so hard before
               C/B
                                        C
                                                  Asus4
i ve never seen wild eyes like yours
             Asus4
Am
С
          heard all the rumors about you
Am
          how you dropped out of high school
C
          with your beat up black converse
Am
          and your broken front tooth
G
         let em talk all they want
F
                              Asus4
      i don t care anymore
                                             C
C
                    C/B
                                                       Asus4
     i ve never seen wild eyes like yours
Am
             Asus4
C
       wouldn t say i was your best friend
Am
       i was just someone who would listen
C
       but it was you and me all summer long
Am
       down in your parents basement
```
