E

It had nothing to do with me

I love to sing and play

And travel with these songs

But I ve got to give the praise

Back to where it all belongs

Before I was even born

He knew what my job would be

He made me who I am for all the world to see

(Chorus)

That s what I love about Him

And friend I d be lost without Him

And He let His life end

A

That s what I love about Jesus

Now it doesn t make me perfect

Or any better than you

And yes, He is my crutch

And He s my wheelchair too

Cause I can t do it on my own

He gives me all my strength

His power helps me make it through each day

(Chorus)

So if you hear this song
You ve got to make a choice
To just keep rolling along
Or to listen to His voice
Since I gave my heart to Him
I have been set free
Yeah, He s made all the difference to me

(Chorus)
