

First Loves

Paul McDonald

[Intro]

C Em Am (x2)

[Verse 1]

I want to learn how to love, not just feel the feeling
I want to mend this heart before I quit believing

[Pre-Chorus]

Did we go there just a little too soon?
Did we take our love for granted?
If I had fought for us just a little bit harder would anything be different?

[Chorus]

I can't keep holding on when you're already gone
Just stay in my arms for a little bit longer
When I close my eyes you're here with me
I'm dancing with your memory
A part of us will always be together because first loves last forever

[Interlude]
