## Where Was I Paul Thorn

Ok so this is my first tab and when i checked on here there wasn t a tab for this

song by Paul Thorn. It is probably not exactly right but it s close and it gets the job done.

you know the song you know it s about the lyrics anyway. So hope this helps you so you

have to sit around and figure it for yourself. -nick

Em7 Cadd9 G

On a black and white tv back in grammar school

Em7 Cadd9 G

I was watchin Neil Armstrong walkin on the moon

Cadd9 Dm7 Em7

That same day i pretended I was an Astronaut

Cadd9 Dm7 D

On the playground monkey bars i flew above the stars

-Chorus-

Em7 Cadd9 G G w/o Astring&move top E to the 2nd fret

Where was I when you stopped lovin me

Em7 Cadd9 G play through with the chord above

And when did I become history

Em7 Cadd9 G and again same chord above

There s not many things that escape my memory

Cadd9 G same chord as above and end on em7

Tell me where was I when you stopped lovin me

-Verse-

Em7 Cadd9 G

Every twenty-thousand years that comet lights up the night

Em7 Cadd9 G

On a blanket we watched it sail across the sky

Cadd9 Dm7 Em7

A moment like this just comes once in life

Cadd9 Dm7 D

Felt like our first time in at eleven thirty-five

-CHORUS-

Now what i d call the bridge

Em7 Cadd9 G

I remember when i met you the taste of our first kiss

Em7 Cadd9 G Dm7

D back to chorus

I remember your goodbye but could you tell me this

-CHORUS-

and that is about it. You can make up your own ending by ending when the chorus stops add where was i over and over like him. Hope i helped someone.
