

Let Go

Paul van Dyk

Paul van Dyk " Let go

Am F C G

Am F

I can't get it out of me

C E

It's breathing inside of me

Am F

It's reaching inside of you

C E

You feeling infected

Am F

You being infected

C E

It's just like a cold

Am F

A kiss on your lips

C E

Now you're taking control

I feel like a criminal

I'm falling apart

We're leaving for Venus

In a getaway car

No one can save us

There's no need to try

I'm looking for saviours

Before they all die

Am F

If you wanna try and save me

C E

Then take my heart don't hate me

Am F C E

If you feel you can let go let go (2x)

I feel like a criminal

I'm falling apart

We're leaving for Venus

In a getaway car

You say that you hold me

But you don't really know

You're clinging to fingers

If you wanna try and save me

Then take my heart don't hate me

If you feel you can let go let go (2x)

Let go, let go, let go, let go...
If you wanna try and save me
And take my heart and take me
If you feel you can let go let go...
