

Come On Lets Go  
Paul Weller

[E5]  
You have never been there  
[Db]  
Till you ve heard the fat girl sing  
[E5]  
Then nothing else matters  
[Db}  
Everything just pales with in  
[E5]  
Hanging round the corners  
[Db]  
Shouting at the top of your voice  
[E5]  
Sing you little fuckers  
[Db]  
Sing like you got no choice  
[A]  
I believe it s true  
[B]  
We are everywhere  
[A5}  
And I feel the wind  
[Db]  
And it feels so high  
[E5}  
There really is no purpose  
[Db]  
Definitely is no need  
[E5]  
To go running round the houses  
[Db]  
Like a racehorse on speed  
[A]  
I believe again  
[B]  
We are everything  
[A5]  
And I feel the wind  
[Db]  
And it gets so high  
  
Come on  
Baby let s go  
Oo come on  
Baby let s go  
  
You say where to

I say I don't know  
I just need to run  
And you need it too  
And I catch your eye  
And I feel the wind  
And it feels so high

We're planting up the acorns  
Wondering to where they'll lead  
We're planting up the acorns  
Wondering to where they'll seed

Come on  
Baby let's go  
Yeah come on  
Baby let's go

You say where to  
I say I don't know
