[Verse 1]
  C
Glide, glide
        Dm
Through a portal to my youth
      G
Where the stillness of silence
 F   C
Brought its undisputed truth

[Verse 2]
  C
When the anchor of kindness
         Dm
Held you safe in someone s arms
     G
And all the fears that kept you awake
   F   C
At night were strangely calmed

[Chorus]
  Am   Am7
Try, try
       E7
See the memories unfold
    Dm
Don t leave me waiting
        Em
In this place so strange and cold
    Dm
Upon my arrival
       G
In this dark and lonely world
      C   C#dim Dm G#dim C
Where I glide, glide way   up high

[Instrumental]
