

**White Horses**  
**Paul Weller**

**Dm7**                    **F**                    **C/G**  
Why be the bully now in my dreams?  
**Dm7**                    **F**                    **C/G**  
Whenever life falls on me  
**Dm7**                    **F**                    **C/G**  
Let s play the way we were, my love  
**Dm7**                    **F**                    **C/G**  
If there s another life to sow

**Dm**  
You re still my little girl  
                         **Dsus2**  
And my special boy  
     **Dm**   **G#** **G**            **Bb**       **F**  
Today we hope to sing

**Dm7**                    **F**                    **C/G**  
Where does the willow learn to grow?  
**Dm7**                    **F**                    **C/G**  
Gift all the treasures you befall.

**Dm**  
Hey, let it go  
                         **Dsus2**  
In love s special hold  
     **Dm**                    **G#**  
To dream is to  
     **G**                    **Bb**                    **F**  
Let us see through it all

**Dm7**                    **Bb**                    **F**  
White horses are taking me home  
                         **Dm7**                    **Bb**                    **F**  
Our love is too faithful to lose  
                         **Dm7**                    **Bb**                    **F**  
Our baby, our baby is growing  
                         **Dm7**                    **Bb**                    **F**  
Time flies and it s lonely alone

**Dm**  
Hey, you little bird  
                         **Dsus2**  
With your special call  
     **Dm**                    **G#**  
Know we leave  
     **G**                    **Bb**                    **F**  
Everything to you

**Dm7**                    **F**                    **C/G**

My father told me how to be

**Dm7**                    **F**                    **C/G**

Give all the treasures left away

**Dm7**                    **Bb**                    **F**  
White horses are taking me home

**Dm7**                    **Bb**                    **F**  
Aw, wild as the wind that does blow

**Dm7**                    **Bb**                    **F**  
White horses are taking me home

**Dm7**                    **Bb**                    **F**  
Time flies and it s lonely alone

**Dm7**                    **Bb**                    **F**  
White horses are taking me home

**Dm7**  
Don t lay at night

**Bb**                    **F**  
Don t lay at night alone

**Dm7**                    **Bb**                    **F**  
White horses are taking me home

**Dm7**                    **Bb**                    **F**  
Wild as the wind that does blow
