

Now I Know What Made Otis Blue
Paul Young

Just a cool song from Paul Young, nice moment.

F# **Bbm**
You got a hold on me
F# **Bbm**
Hey don t you know
F# **Bbm** **G#** **C#**
We ve gone too far for me to let you go
F# **Bbm**
You throw my love away
F# **Bbm**
And then you try
F# **Bbm** **G#** **C#**
To see it burning in a stranger s eye

Bb **F**
I remember the good times
G# **Gm**
I remember the things we used to do

Now I know what made Otis blue
Girl it must be love that we re going through
Now I know what made Otis blue
Every single night I keep wanting you

Don t make me sleep alone
Don t make me bleed
How can you waste your love in jealousy
If we re together baby
Your eyes still see
There is no other lover here with me

You remember the good times
Do you remember when every word was true

B
There s no one else Only you
F#
I m begging you
Bbm **F** **F#** **Bbm**
Don t turn your heart to restless

Now I know what made Otis blue

Girl it must be love that we re going through
Now I know what made Otis blue
Every single night I keep wanting you
