

**Straight Up Acoustic**  
**Paula Abdul**

Tabbed by: Chris Broad (\*)

I came across a YouTube video of this tune. If you're looking at this tab, then you've seen the one I'm talking about. I finally decided to take the time and tab this one

If you look at the video, then you'll know this is 100% correct. He does a little more what's here, but this tab should at least be good for a laugh if you're ever at a party, or whatever. But enough of my ranting, enjoy!
